

Exeter Sportsman's Club
New Member Orientation

What to bring to the range:

- Badge and proximity card
- Trash bag
- Cardboard
- Appropriate targets (paper, clays, metal reactive targets, or other approved type)
- Tape
- Clothesline and clothespins or binder clips (on occasion).
- Eye and ear protection
- Hand wipes for lead exposure
- Empty chamber flags for guns with slides that don't lock back
- Bags for your brass if you want to keep it (Lyman brass baggies are great).

Please do not bring:

- Targets with a face
- Staple guns
- Any metal target not designed for the purpose of shooting (no homemade metal targets)
- Shattering targets (except for clays). No glass, shattering plastic.
- No cans

ESC is a carry-in-carry-out range! We do not have trash service, so please take your targets and cardboard ammo boxes with you.

Keep ALL rounds in the backstop. The backstop is above the horizontal timbers and below the yellow boundary line—place your targets accordingly.

Please keep the range clean. Pick up your brass and shotgun hulls and place them in the appropriate bins or take them with you.

Look around for anything unsafe. If something needs to be addressed let a club officer know or show up for WOW and help fix it.

Communicate with club officers about improvements you would like to see or to lend any expertise you may have.

Most importantly:

BE SAFE!
